

Special Issue on Applied Statistics

Call for Papers

Statistics deals with the collection, analysis, interpretation, presentation, and organization of data. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. It's widely applied in many disciplines.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **applied statistics**. Potential topics include, but are not limited to:

- Biostatistics and medical statistics
- Environmental statistics
- Engineering statistics
- Energy statistics
- Statistical mechanics
- Social statistics
- Actuarial science
- Statistics for science
- Demographic statistics
- Risk score
- Information statistics
- Spatial statistics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Applied Statistics**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 4th, 2019
Publication Date	March 2019

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
