

Special Issue on Arrhythmias

Call for Papers

An arrhythmia is a disorder of the heart rate or heart rhythm. It means that the heart beats too quickly (tachycardia), too slowly (bradycardia), or with an irregular pattern. Symptoms of arrhythmias include: palpitations, chest pain, fast or slow heart beat, lightheadedness or dizziness, shortness of breath, skipping beats, sweating and so on.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Arrhythmias**. Potential topics include, but are not limited to:

- Extra beats
- Supraventricular tachycardias
- Ventricular arrhythmias
- Bradyarrhythmias
- Pacemakers
- Beta blockers
- Defibrillation
- Electrocardiogram

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Arrhythmias**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 31st, 2017
Publication Date	March 2017
