

Special Issue on Ischemic Heart Disease

Call for Papers

Ischemic heart disease, usually called coronary artery disease, is a condition characterized by reduced blood supply to the heart. It is the most common type of cardiovascular diseases and a leading cause of death worldwide. A common symptom is chest pain or discomfort which may travel into the shoulder, arm, back, neck, or jaw.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Ischemic Heart Disease**. Potential topics include, but are not limited to:

- Stable angina
- Unstable angina
- Myocardial infarction
- Sudden coronary death
- Risk factors
- Signs and symptoms

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Ischemic Heart Disease**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 12th, 2017
Publication Date	November 2017
