

## Special Issue on Pediatric Cardiology

### Call for Papers

**Pediatric Cardiology** is concerned with diseases of the heart in the growing and developing individual. As well as expertise in heart disease, pediatric cardiologists also need a thorough grounding in general pediatrics, in order to provide all-round patient care.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **pediatric cardiology**. Potential topics include, but are not limited to:

Pediatric cardiology & pulmonology  
Adolescent cardiology  
Congenital heart disease  
Heart murmurs  
Pediatric pericarditis  
Fetal cardiology  
Pediatric oncology  
Pediatric cardiac tumors  
Pediatric Kawasaki disease  
Child anesthesia for cardiac surgery

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Pediatric Cardiology**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	May 25th, 2018
Publication Date	July 2018
