

Special Issue on Cardiovascular Imaging

Call for Papers

Cardiovascular imaging is a subspecialty of diagnostic radiology, using imaging techniques such as X-rays, ultrasound (echocardiograms), CT (computed tomography) scans and MRI (magnetic resonance imaging) scans for the noninvasive imaging of the heart and vascular system to screen for heart disease, determine causes of symptoms and find out treatment.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Cardiovascular Imaging**. Potential topics include, but are not limited to:

- Cardiac Magnetic Resonance Imaging
- Coronary angiography
- Ultrasound imaging
- Cardiac CT
- Echocardiography
- Myocardial perfusion imaging
- Nuclear cardiology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Cardiovascular Imaging**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 18th, 2019
Publication Date	February 2020

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
