TABLE OF CONTENTS

Volume 6 Number 9 September 2013

Towards Enhanced Program Comprehension for Service Oriented Architecture (SOA) Systems

E. El-Sheikh, T. Reichherzer, L. White, N. Wilde, J. Coffey, S. Bagui, G. Goehring, A. Baskin……435

eXRUP: A Hybrid Software Development Model for Small to Medium Scale Projects

G. Rasool, S. Aftab, S. Hussain, D. Streitferdt……446

Measuring Qualities of XML Schema Documents

T. Z. Thaw, M. M. Khin……458

A Decision Support System for Selection of Solar Power Plant Locations by Applying Fuzzy AHP and TOPSIS: An Empirical Study

A. Kengpol, P. Rontlaong, M. Tuominen……470

A Study of EPUB 3.0 Authoring Tools Availability in Vertical Form Function

C.-Y. Chang, H.-J. Yang……482

Improving Parallelism in Software Development Process

T. N. Nguyen……489

Test Selection on Extended Finite State Machines with Provable Guarantees

B. Guo, M. Subramaniam……500

Object Detection Using SURF and Superpixels

M. Lopez-de-la-Calleja, T. Nagai, M. Attamimi, M. Nakano-Miyatake, H. Perez-Meana……511

The figure on the front cover is from the article published in Journal of Software Engineering and Applications, 2013, Vol. 6, No. 9, pp. 511-518 by Miriam Lopez-de-la-Calleja, *et al.*

Call for Papers

Journal of Software Engineering and Applications (JSEA)

ISSN 1945-3116 (print) ISSN 1945-3124 (online)

www.scirp.org/journal/jsea

JSEA publishes four categories of original technical articles: papers, communications, reviews, and discussions. Papers are well-documented final reports of research projects. Communications are shorter and contain noteworthy items of technical interest or ideas required rapid publication. Reviews are synoptic papers on a subject of general interest, with ample literature references, and written for readers with widely varying background. Discussions on published reports, with author rebuttals, form the fourth category of JSEA publications.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

Automated Software Design and Synthesis
Automated Software Specification
Component-Based Software Engineering
Computer-Supported Cooperative Work
Formal Methods
Knowledge Acquisition
Object-Oriented Technology
Patterns and Frameworks
Process and Workflow Management
Program Understanding Issues
Programming Languages and Software Engineering
Reflection and Metadata Approaches
Reliability and Fault Tolerance
Requirements Engineering
Reverse Engineering
Software Architecture
Software Design Methods
Software Domain Modeling and Meta-Modeling
Software Engineering Decision Support
Software Engineering Education
Software Maintenance and Evolution
Software Process Modeling
Software Quality
Software Reuse
Software Testing
Tutoring, Help, Documentation Systems

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the JSEA.

Notes for Prospective Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
