| Prof. Jianbo Gao                | Wright State University, USA                                                        |
| Prof. Christo Boyadjiev         | Bulgarian Academy of Science, Bulgaria                                              |
| Prof. Alexander A. Bagaturyants | Russian Academy of Sciences, Russia                                                 |
| Prof. SungCheal Moon            | Korea Institute of Materials Science (KIMS), Korea (South)                          |
| Prof. Arno Seeboth              | Fraunhofer Institute for Applied Polymer Research, Germany                          |
| Prof. Changle Chen              | University of Science and Technology of China, China                                |
| Prof. Zheng-Hong Luo            | Shanghai Jiao Tong University, China                                                |
| Prof. Chang-Sik Ha              | Pusan National University, Korea (South)                                            |
| Dr. Muhammad Mansha             | University of Engineering and Technology, Pakistan                                  |
| Prof. Nicola Pugno              | University of Trento, Italy                                                         |
| Dr. Jukka P. Matinlinna         | The University of Hong Kong, China                                                  |
| Prof. Yaodong YANG              | Xi'an Jiaotong University, China                                                    |
| Prof. Jory A. Yarmoff           | University of California, USA                                                       |
| Dr. Mathew T. Mathew            | Rush University Medical Centre, USA                                                 |
| Prof. Adnane Abdelghani         | National Institute of Applied Science and Technology, Tunisia                       |
| Dr. Mehmet Aktas                | Usak University, Turkey                                                             |
| Prof. Paolo Maria Mariano       | University of Florence, Italy                                                       |
| Prof. Huan-Tsung Chang          | National Taiwan University, Chinese Taipei                                          |
| Dr. Vamsi Krishna Balla         | Central Glass and Ceramic Research Institute, India                                 |
| Prof. El-Hang Lee               | Seoul National University, Korea (South)                                            |
| Prof. Alexander A. Bagaturyants | Russian Academy of Sciences, Russia                                                 |
| Prof. Bankim Chandra Ray        | National Institute of Technology, India                                             |
| Dr. Ichiro Imae                 | Hiroshima University, Japan                                                         |
| Dr. Samit Kumar Nandi           | West Bengal University of Animal and Fishery Sciences, India                        |
| Prof. Bogdan Marciniec          | Poznań Science and Technology Park, Poland                                          |
| Dr. Mile Ivanda                 | Dept. of Materials Physics, Ruder Boskovic Institute, Croatia, Italy                |
| Prof. SABU SABU THOMAS          | Mahatma Gandhi University, Poland                                                   |
| Prof. Md. Mahbub Hasan          | Rajshahi University, Bangladesh                                                     |
| Dr. Gopal U. Shinde             | College of Agricultural Engg.&Technology, MARATHWADA AGRICULTURAL UNIVERSITY, India |
| Prof. N. Balasubramanian        | A.C. Tech Campus, Anna University, India                                            |
| Prof. Abdel Hadi Kassiba        | University of Maine, France                                                         |
| Prof. Claudio Cuevas            | Universidade Federal de Pernambuco, Brazil                                          |
| Prof. Medhat Moustafa El-Sayed  | Atomic Energy Authority, Cairo, Egypt                                               |
| Dr. DHANANJAY MADHUKAR KULKARNI | Birla Institute of Technology & Science, India                                      |
| Prof. Hossain Uddin Shekhar     | University of Dhaka, Bangladesh                                                     |
| Dr. VINOHAR STEPHEN RAPHEAL     | Kumaraguru College of Technology, India                                             |
| Dr. Olapeju Phorbee             | Greenwich Council, London, UK                                                       |
| Dr. S. GOPALAKRISHNAN           | NOORUL ISLAM UNIVERSITY, India                                                      |
| Prof. Abdul Rahim Khan          | King Fahd University of Petroleum and Minerals, Saudi-arabia                        |
| Prof. Guang-Jiong NI            | Portland State University, USA                                                      |
| Prof. Sattar B. Sadkhan         | University of Babylon, Iraq                                                         |
| Prof. ALOK SRIVASTAVA           | Panjab University, Chandigarh, India                                                |
| Prof. Donald Choy CHANG         | Hong Kong University of Science and Technology, China                               |
| Dr. XIAOFENG SEAN YANG          | Monsanto Company, St Louis, Missouri, USA                                           |
| Dr. Mohammad Mehdi Rashidi      | Bu-Ali Sina University Department of Mechanical Engineering, Iran                   |
| Dr. Mu-Song Chen                | Da-Yeh University, Chinese Taipei                                                   |
| Dr. K. K. Pathak                | A. V. College, India                                                                |
| Dr. Paul Chen                   | National University of Singapore, Singapore                                         |
| Prof. JOSÉ MANOEL BALTHAZAR     | Brazilian Council for Mechanical Engineering Research Development, Brazil           |
| Prof. A. M. Abd El-Aty          | Cairo University, Egypt                                                             |
| Dr. Teklu Erkossa Jijo          | International Water Management Institute, Ethiopia                                  |
| Dr. PRITHA DAS                  | BES University, India                                                               |
| Prof. Hassane OUDADESSE         | Université de Rennes, France                                                        |

## Table of Contents

Volume 2    Number 2

April 2014

|                                                                                                                                                                 |    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>Multiscale Modelling for Cerebrospinal Fluid Dynamics: Multicompartmental Poroelasticity and the Role of AQP4</b>                                            |    |
| D. Chou, J. C. Vardakis, Y. Ventikos.....                                                                                                                       | 1  |
| <b><i>In Vitro</i> Immersion Behavior of Cold Sprayed Hydroxyapatite/Titanium Composite Coatings</b>                                                            |    |
| L. Lu, X. Zhou, P. Mohanty.....                                                                                                                                 | 10 |
| <b>Reducing Radiation Dose by Using Pulse X-Ray Apparatus</b>                                                                                                   |    |
| A. A. Komarskiy, A. S. Chepusov, V. L. Kuznetsov, S. R. Korzhenevskiy, S. P. Niculin, S. O. Cholakh.....                                                        | 17 |
| <b><i>In Vivo</i> Evaluation of Titanium Implants Bioactivated by a Modified Kokubo's Treatment</b>                                                             |    |
| J. de Jesus, E. Gemelli, F. Nery, N. H. A. Camargo.....                                                                                                         | 22 |
| <b>Incorporation of Carboplatin in Microporous Granular Calcium Phosphate Biphasic Matrix</b>                                                                   |    |
| C. Copatti, N. H. A. Camargo, E. Gemelli.....                                                                                                                   | 30 |
| <b><i>In Vivo</i> Preliminary Study on Bone Neoformation Behavior of Three Types of Calcium Phosphate Bioceramics</b>                                           |    |
| N. H. A. Camargo, E. Gemelli, A. N. de Moraes, B. D. da Costa, N. Oleskovicz, A. L. Dallabrida, D. Regalin, M. P. A. de Lima.....                               | 36 |
| <b>Robust Spatial Filters on Three-Class Motor Imagery EEG Data Using Independent Component Analysis</b>                                                        |    |
| B. Y. Zhou, X. P. Wu, L. Zhang, Z. Lv, X. J. Guo.....                                                                                                           | 43 |
| <b>Converging Parallel Plate Flow Chambers for Studies on the Effect of the Spatial Gradient of Wall Shear Stress on Endothelial Cells</b>                      |    |
| Y. L. Lu, W.-Q. Li, I. Orafige, W. Wang.....                                                                                                                    | 50 |
| <b>Influence of Synthesis Parameters on the Structure, Pore Morphology and Bioactivity of a New Mesoporous Glass</b>                                            |    |
| N. Letaief, A. Lucas-Girot, H. Oudadesse, R. Dorbez-Sridi.....                                                                                                  | 57 |
| <b>Creep-Recovery and Relaxation Behavior of High Density Polyethylene/Hydroxyapatite Nano Particles for Bone Substitutes: Effects of Gamma Radiation</b>       |    |
| H. Fouad, O. Y. Alothman.....                                                                                                                                   | 64 |
| <b><i>Blastomyces dermatitidis</i> Antibody Responses in Serial Serum Specimens from Dogs with Blastomycosis: Comparison of Different Yeast Lysate Antigens</b> |    |
| M. Shepherd, M. Lutes, G. Scalarone.....                                                                                                                        | 67 |
| <b>Antibacterial Effects of Extracts of Two Types of Red Sea Algae</b>                                                                                          |    |

A. Al-Judaibi.....74

---

The figure on the front cover is from the article published in Journal of Biosciences and Medicines, 2014, Vol. 2, No. 2, pp. 1-9 by Dean Chou, John C. Vardakis, Yiannis Ventikos.

## **Journal Information**

### **SUBSCRIPTIONS**

The *Journal of Biosciences and Medicines* (Online at Scientific Research Publishing, [www.SciRP.org](http://www.SciRP.org)) is published monthly by Scientific Research Publishing, Inc., USA.

#### **Subscription rates:**

Print: \$39 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: [sub@scirp.org](mailto:sub@scirp.org)

### **SERVICES**

#### **Advertisements**

Advertisement Sales Department, E-mail: [service@scirp.org](mailto:service@scirp.org)

#### **Reprints (minimum quantity 100 copies)**

Reprints Co-ordinator, Scientific Research Publishing, Inc., USA.

E-mail: [sub@scirp.org](mailto:sub@scirp.org)

### **COPYRIGHT**

#### **COPYRIGHT AND REUSE RIGHTS FOR THE FRONT MATTER OF THE JOURNAL:**

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
