

Table of Contents

Volume 4 Number 3

September 2014

Development of the Separate Air-Supply Type of Pressurization Smoke Control System for the Stairwells of High-Rise Buildings in Korea

- J.-Y. Kim, H.-J. Shin, C.-S. Ahn, J.-S. Kim, S.-H. Joo.....251

Numerical Analysis of Turbulent Fluid Flow and Drag Coefficient for Optimizing the AUV Hull Design

- J. V. N. de Sousa, A. R. L. de Macêdo, W. F. de Amorim J., A. G. B. de Lima.....263

Consideration on the Flow Velocity in the Experimental Analysis of the Flame Displacement Speed Using DNS Data of Turbulent Premixed Flames with Different Lewis Numbers

- K. Tsuboi, S. Morishita, E. Tomita.....278

DNS Analysis on the Indirect Relationship between the Local Burning Velocity and the Flame Displacement Speed of Turbulent Premixed Flames

- K. Tsuboi, E. Tomita.....288

About Appearance of the Irreversibility

- I. V. Lebed.....298

Large Eddy Simulation of Pseudo-Shock Waves Using Wall Model

- S. Lee, Y. Ogino, K. Sawada.....321

Applying the Artificial Neural Network to Estimate the Drag Force for an Autonomous Underwater Vehicle

- E. Yari, A. Ayoobi, H. Ghassemi.....334
