Table of Contents

Volume 3 Number 1

January 2015

Investigation of the Behavior of a Jet Issued into Two-Layer Density-Stratified Fluid

S. Shakouchi, S. Fukue, T. Uchiyama.....1

Improvement on Quantitative Measurement of Fly Ash Contents Using Laser-Induced Breakdown Spectroscopy

Z. Z. Wang, Y. Deguchi, H. Watanabe, R. Kurose, J. J. Yan, J. P. Liu.....10

Plasma Virtual Actuators for Flow Control

K.-S. Choi, T. N. Jukes, R. D. Whalley, L. H. Feng, J. J. Wang, T. Matsunuma, T. Segawa.....22

Velocity Measurement by PIV Using W-Shaped Scanning Light Sheet

S. Funatani, T. Takeda, K. Toriyama.....35

Journal of Flow Control, Measurement & Visualization (JFCMV)

Journal Information

SUBSCRIPTIONS

Journal of Flow Control, Measurement & Visualization (Online at Scientific Research Publishing, www.SciRP.org) is published quarterly by Scientific Research Publishing, Inc., USA.

Subscription rates:

Print: \$59 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: sub@scirp.org

Journal of Flow Control, Measurement & Visualization

ISSN 2329-3322 (Print) ISSN 2329-3330 (Online)

<http://www.scirp.org/journal/jfcmv>

This Journal is aimed at publishing original articles with visual images which will demonstrate facts to assist in the understanding of the presented information. Each article submitted should not have been published before nor simultaneously submitted for publication elsewhere.

Subject Coverage

JFCMV is a quarterly online international journal. This journal will cover a wide range of experimental and computational articles in the fields of flow control, measurement and visualization. The fields include topics related to acoustics, aeronautics, biomedical and life sciences, combustion, fluid mechanics, heat transfer, hydraulics, micro and nano fluids, multiphase flow, ocean and wind engineering, optical measurement, safety management technology, scientific arts, sports science, turbo machinery, turbulence, visual information, and others.

Three types of articles will be considered for publication in the Journal:

Original Paper: Original publications on the subjects of flow control, measurement and visualization are encouraged to submit if they contain a sufficient amount of visual images.

Review Paper: Reviews on the topics in the fields of this Journal are encouraged to submit, if they contain a sufficient amount of visual images.

Short Paper: Rapid publications of original research in a short form are encouraged to submit, if they contain a sufficient amount of visual images.

Since the Journal focuses on publishing visual experimental and computational data, visual images are important factors for publication consideration.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
