The World Journal of Nano Science and Engineering contains original and innovative research pertaining to the applications of the physical, chemical and biological sciences to engineering at nano scale. The highest priority is given to scientific research that transcends the classical boundaries and introduces cutting-edge frontiers.

Subject Coverage

This journal invites original research and review papers that address the following issues. Fields of interest include, but are not limited to:

- Computational Nanotechnology
- Energy at the Nanoscale
- Molecular Nanotechnology
- Molecular Self-Assembly
- Nanobiotechnology
- Nanodevices
- Nanoelectronics
- Nanoengineering
- Nanolithography
- Nanomachining
- Nanomaterials
- Nanomedicine
- Nano-Optics
- Nanophysics

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of World Journal of Nano Science and Engineering.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
