

# Table of Contents

**Volume 5    Number 6**

**June 2017**

## **Oscillation and Asymptotic Behaviour of Solutions of Nonlinear Two-Dimensional Neutral Delay Difference Systems**

K. Thangavelu, G. Saraswathi.....1215

## **A Multi-MW Proton/Electron Facility at KEK**

R. Belusevic.....1222

## **Modeling for Collapsing Cavitation Bubble near Rough Solid Wall by Multir-Relaxation-Time Pseudopotential Lattice Boltzmann Model**

M. L. Shan, Y. P. Zhu, C. Yao, Q. B. Han, C. P. Zhu.....1243

## **Non-Native English Speaker Readability Metric: Reading Speed and Comprehension**

A. Boudjella, M. Sharma, D. Sharma.....1257

## **Optimal Distributed Control Problem for the $b$ -Equation**

C. Y. Shen.....1269

## **A Second Order Characteristic Mixed Finite Element Method for Convection Diffusion Reaction Equations**

T. J. Sun.....1301

## **A-Equation and Its Connections to Nonlinear Integrable System**

Y. L. Zhang.....1320

## **Approximate and Invariant Solutions of a Mathematical Model Describing a Simple One-Dimensional Blood Flow of Variable Density**

R. Ibragimov, N. Ibragimov, P. Mohazzabi.....1335

## **Supply Chain Finance Decision Analysis with a Partial Credit Guarantee Contract**

Y. L. Su, B. Y. Zhong.....1355

## **N-Rotating Loop-Soliton Solution of the Coupled Integrable Dispersionless Equation**

S. Abbagari, S. Youssoufa, H. T. Tchokouansi, V. K. Kuetche, T. B. Bouetou, T. C. Kofane.....1370

## **Influence of the Foundation on the Threshold of Stability for Rotating Machines with Roller Bearings—A Theoretical Analysis**

U. Werner.....1380

## **$PP$ and $PP^{\bar{}}$ Multi-Particles Production Investigation Based on CCNN Black-Box Approach**

E.-S. A. El-Dahshan.....1398
