TABLE OF CONTENTS

Volume 1 Number 3

September 2011

Computing the Moore-Penrose Inverse of a Matrix through Symmetric Rank-One Updates

X. Z. Chen, J. Ji.....147

A Fourth Order Improved Numerical Scheme for the Generalized Burgers—Huxley Equation

A. G. Bratsos.....152

Quasi-Reversibility Regularization Method for Solving a Backward Heat Conduction Problem

A. L. Qian, J. F. Mao.....159

Operator Splitting Method for Coupled Problems: Transport and Maxwell Equations

J. Geiser.....163

Haar Wavelet Quasilinearization Approach for Solving Nonlinear Boundary Value Problems

H. Kaur, R. C. Mittal, V. Mishra.....176

Conditional Value-at-Risk for Random Immediate Reward Variables in Markov Decision Processes

M. Kageyama, T. Fujii, K. Kanefuji, H. Tsubaki.....183

Simulation of Human Phonation with Vocal Nodules

S. Deguchi, Y. Kawahara.....189

**Computational Optimization of Manufacturing Batch Size and Shipment for an Integrated EPQ Model
with Scrap**

Y.-S. P. Chiu, H.-D. Lin, M.-H. Hwang, N. Pan.....202

<http://www.scirp.org/journal/ajcm>

American Journal of Computational Mathematics (AJCM) is a journal dedicated to providing a platform for publication of articles about mathematical research in areas of science where computing plays a central and essential role emphasizing algorithms, numerical methods, and symbolic methods.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Computer-Assisted Research
- Computational Linguistics
- Computational Science
- Computer Simulation
- Mathematics of Scientific Computation
- Numerical Methods
- Stochastic Methods
- Symbolic Computation and Computer Algebra Systems

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of *American Journal of Computational Mathematics*.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
