

Special Issue on Pigs

Call for Papers

A pig is any of the animals in the genus *Sus*, within the Suidae family of even-toed ungulates. Pigs include the domestic pig and its ancestor, the common Eurasian wild boar, along with other species; related creatures outside the genus include the peccary, the babirusa, and the warthog.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **pigs**. Potential topics include, but are not limited to:

- Monitoring feed intake and growth
- Behavioral observations and behavioral tests
- Habitat and reproduction
- Diet and foraging
- Relationship with humans
- Domestic pigs
- Pathogens and parasitic organisms
- Minor surgical procedures
- Welfare measurement

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Pigs**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	June 26th, 2017
Publication Date	August 2017
