

Special Issue on Development of Nursing Research

Call for Papers

Nursing research has not always had the prominence and importance it enjoys today, but its interesting history portends a distinguished future. Nursing currently evidences concern with the development and clarification of its knowledge base. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **development of nursing research**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **development of nursing research**. In this special issue, potential topics include, but are not limited to:

- Traditional nursing
- Modern nursing
- Senior care
- Development of nursing knowledge
- Nursing research status
- Nursing research in future

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue –Development of Nursing Research**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 31st, 2020
Publication Date	March 2020
