## Subject Coverage

This journal offers a specialized forum for applied research on financial risk management that include, but not restricted to:

- Alternative risk-transfer mechanisms
- Capital structure and credit-arbitrage methods
- Commercial insurance and reinsurance
- Derivatives and structured financial products
- Financial market regulation
- Other issues relating to the effective management of financial, operational, and business risk
- Investing in various financial markets and instruments
- Risk and performance management and measurement
- Risk management processes
- Risk modelling
- Risk securitization

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

## Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
