Volume 7 Number 5

May 2017

Different Preservation Methods for Long Term Maintenance of *Haemophilus influenzae*

K. Prajapati, S. Rajdev, S. Mullan.....343

High Ethanol Production by Marine-Derived Yeasts-*Saccharomyces cerevisiae* under Stress Pressures

N. Urano, A. Shirao, M. Okai, M. Ishida.....349

Effect of Lactate and Starter Inoculum on Biogas Production from Fresh Maize and Maize Silage

P. Satpathy, S. Steinigeweg, E. Siefert, H. Cypionka.....358

Microorganisms Associated with Vegetable Oil Polluted Soil

B. M. Popoola, A. A. Onilude.....377

Continuous Saccharification of Laminarin by Immobilized Laminarinase ULam111 Followed by Ethanol Fermentation with a Marine-Derived Yeast

D. Mitsuya, M. Yamamoto, M. Okai, A. Inoue, T. Suzuki, T. Ojima, N. Urano.....387
