Table of Contents

Volume 9 Number 1

January 2018

Robust Digital Audio Watermarking Based on SVD and Modified Firefly Algorithm

S. A. M. Rizvi, S. P. S. Chauhan.....1

Non-Homogeneous Stochastic Model for Cyber Security Predictions

P. K. Kaluarachchi, C. P. Tsokos, S. M. Rajasooriya.....12

The Study of Secure Congestion Control for TCP in Ad Hoc Networks

W. N. Zhang, L. Lin, L. Du.....25

DDoS Attack Detection Using Heuristics Clustering Algorithm and Naïve Bayes Classification

S. Bista, R. Chitrakar.....33

A Survey of Cloud Computing Detection Techniques against DDoS Attacks

S. Alzahrani, L. Hong.....45

On the Use of k -NN in Anomaly Detection

T. Tsigkritis, G. Groumas, M. Schneider.....70

Security Analysis of Subspace Network Coding

Y. T. Liu, Y. Morgan.....85

End-to-End Encryption in Messaging Services and National Security—Case of WhatsApp Messenger

R. E. Endeley.....95

A Security Architecture for SCADA Systems

A. Velagapalli, M. Ramkumar.....100

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:

E-mail: jis@scirp.org

Journal of Information Security

ISSN 2153-1234 (Print) ISSN 2153-1242 (Online)

<http://www.scirp.org/journal/jis>

JIS, a quarterly journal, publishes research and review articles in all important aspects of information security. Both experimental and theoretical papers are acceptable provided they report important findings, novel insights, or useful techniques in these areas.

Editor-in-Chief

Prof. Gyungho Lee

Korea University, South Korea

Subject Coverage

JIS aims to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of information security. All manuscripts submitted to JIS must be previously unpublished and may not be considered for publication elsewhere at any time during JIS's review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. The topics to be covered by Journal of Information Security include, but are not limited to:

Access Control	Intrusion Detection
Anti-Virus and Anti-Worms	Key Management and Key Recovery
Authentication and Authorization	Language-Based Security
Biometric Security	Network Security
Cryptography	Operating System Security
Data and System Integrity	Risk Evaluation and Security Certification
Database Security	Security and Privacy for Social Computing
Distributed Systems Security	Security Evaluation
Electronic Commerce Security	Security for Mobile Computing
Fraud Control	Security Models
Grid Security	Security Protocols
Information Hiding and Watermarking	Signature and Key Agreement Protocol
Information Privacy	Software Security
Information Security Engineering	System Security
Intellectual Property Protection	Trusted Computing and Trustworthy Computing Technology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **JIS**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
