**Open Journal of Metal (OJMetal)** is an international journal dedicated to the latest advancement of metals and related disciplines. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of metals and keep a record of state-of-the-art research.

## Subject Coverage

The journal publishes original papers including, but not limited to the following subfields of metals:

- ◎ Amorphous, microcrystalline metal materials
- ◎ Ferrous metals and alloys
- ◎ Low-dimensional metal
- ◎ Metal materials and other disciplines
- ◎ Non-ferrous metals and alloys
- ◎ Special features metallic materials

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

## Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
