**American Journal of Computational Mathematics (AJCM)** is a journal dedicated to providing a platform for publication of articles about mathematical research in areas of science where computing plays a central and essential role emphasizing algorithms, numerical methods, and symbolic methods.

## Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Algebraic Theory of Computer Science
- Combinatorics
- Computational Geometry
- Computational Linguistics
- Computational Science
- Computer Simulation
- Computer-Assisted Research
- Discrete Mathematics in Relation to Computer Science
- Logic in Computer Science
- Mathematics of Scientific Computation
- Numerical Methods
- Stochastic Methods
- Symbolic Computation and Computer Algebra Systems

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of *American Journal of Computational Mathematics*.

## Notes for Intending Authors
