Table of Contents

Volume 8 Number 2

June 2018

Adsorption Kinetics and Thermodynamics Study of Butylparaben on Activated Carbon Coconut Based

P. Atheba, N. B. Allou, P. Drogui, A. Trokourey.....39

Development of Fine Poly(D,L-Lactic-Co-Glycolic Acid) Particles for Hydrophilic Drug Using a Solid-in-Oil-in-Water Emulsion

E. Toorisaka, K. Watanabe, M. Hirata.....58

Modelling and Simulation of Solidification Phenomena during Additive Manufacturing of Bulk Metallic Glass Matrix Composites (BMGMC)—A Brief Review and Introduction of Technique

M. M. A. Rafique.....67

Preparation of Fluoroalkyl End-Capped Oligomer/Cyclodextrin Polymer Composites: Development of Fluorinated Composite Material Having a Higher Adsorption Ability toward Organic Molecules

J.-I. Suzuki, Y. Takegahara, Y. Oikawa, Y. Aomi, H. Sawada.....117

Journal of Encapsulation and Adsorption Sciences (JEAS)

ISSN: 2161-4865 (Print) ISSN: 2161-4873 (Online)
<http://www.scirp.org/journal/jeas>

Journal of Encapsulation and Adsorption Research (JEAS) is an international, specialized, English-language journal devoted to publication of original contributions concerning with the processes and technology adsorption and also encapsulation (nano-, micro...) for applications including among others:

Biomedical and pharmaceutical applications with drug delivery systems (transdermal, oral), biomarkers, nanomedicine, nano-tagants with fluorescent dyes encapsulated, theranostics, biomimetics...

Food technology,

Cosmetics,

Textiles,

Biochemistry,

Optics,

Photonics,

Environment, energy storage, thermal insulation and reinforcement materials.

It is an open-access, peer-reviewed journal describing scientific and technological advances that cover the basic sciences, engineering aspects and applied technology of molecules (proteins, enzymes, food, fragrance, gas...) as well as other diverse materials encapsulation and adsorption with preparative manipulation and related materials properties. The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books, covering both the experimental and theoretical aspects including but not limited to the following materials (as bulk, films, nanoparticles), studies and techniques:

- Adsorption
- Capsulation Process and Characterization
- Capsulation Techniques Processes and Instrumentation
- Catalysis
- Coating Process of Encapsulated Materials
- Coatings
- Colloids and Formulations
- Controlled Release
- Encapsulation in Layer-by-Layer Polyelectrolyte Films
- Encapsulation in the Food, Cosmetics and Biomedical Fields among others
- Hydrogels, Polymers, (Sol-Gel) Glasses, Ceramics, Inorganic-Organic Hybrid Materials, Porous Materials and Metal-Organic Framework as Bulk or Films, Multi-Functional Particles, Nanocapsules, and any other host matrices and materials supports of interest.
- Molecular Interactions Studies, Surface Properties
- Technical Processes and Analytical Methods

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are referred through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
