TABLE OF CONTENTS

Volume 2 Number 4

October 2011

Safety Measurements of Electromagnetic Fields Radiated from Mobile Base Stations in the Western Region of Saudi Arabia

M. Nahas, M. T. Simsim.....221

Optimal M-BCJR Turbo Decoding: The Z-MAP Algorithm

A. Ouardi, A. Djebbari, B. S. Bouazza.....230

A Novel Ultra-Wideband Monopole Antenna with Band-Stop Characteristic

H. J. Lak, C. Ghobadi, J. Nourinia.....235

Comparison of Indoor Localization Systems

R. Dalce, T. Val, A. Van Den Bossche.....240

3 - 10 GHz Ultra-Wideband Low-Noise Amplifier Using Inductive-Series Peaking

Technique with Cascode Common-Source Circuit

C.-S. Wu, T.-Y. Lin, C.-H. Chang, H.-M. Wu.....257

The figure on the front cover is from the article published in the *Wireless Engineering and Technology*, 2011, Vol. 2, No. 4, pp. 221-229 by Mouaaz Nahas and Mohammed T. Simsim.

Call for Papers

Wireless Engineering and Technology (WET)

ISSN 2152-2294 (Print) ISSN 2152-2308 (Online)

<http://www.scirp.org/journal/wet>

Wireless Engineering and Technology is an international journal dedicated to the latest advancement of wireless engineering and technology. The goal of this journal is to provide a platform for scientists, students, academics and engineers all over the world to promote, share, and discuss various new issues and developments in different areas of wireless engineering and technology.

Editor-in-Chief

Dr. Yi Huang

University of Liverpool, UK

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Antenna Systems and Radio Frequency (RF) Engineering
- Body Area Networks and Its Applications
- Broadband Wireless Access Techniques
- Cognitive Radio and Software Defined Radio
- Microwave and Millimeter Wave Theory and Techniques
- Multi-User and Multiple Access Schemes
- Optical Wireless Communications
- Radio Network Planning and Optimization for UMTS
- Radio Resource Management and Interference Control
- Terahertz and Infrared Technology and Engineering
- Vehicular Communications and Networks
- Wireless Air Interface and Link Control
- Wireless Channel Modeling and Propagation
- Wireless Multimedia Communications and Computing
- Wireless Power Transmission
- Wireless Sensor Networks
- Wireless System Architectures and Applications
- Wireless Traffic and Routing

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **WET**.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
