Open Journal of Inorganic Chemistry (OJIC) is an international journal dedicated to the latest advancement of inorganic chemistry. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of inorganic chemistry. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy.

Subject Coverage

The journal publishes original papers including but not limited to the following fields:

- Bioinorganic Compounds
- Characterization of Inorganic Compounds
- Cluster Compounds
- Coordination Compounds
- Descriptive Inorganic Chemistry
- Industrial Inorganic Chemistry
- Main Group Compounds
- Main Group Elements and Lanthanides
- Mechanistic Inorganic Chemistry
- Molecular Symmetry Group Theory
- Organometallic Compounds
- Qualitative Theories
- Solid State Compounds
- Synthetic Inorganic Chemistry
- Theoretical Inorganic Chemistry
- Thermodynamics and Inorganic Chemistry
- Transition Metal Complexes
- Transition Metal Compounds

We are also interested in: 1) Short Reports – 2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews – Comments and critiques

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
