**Volume 9    Number 4**

**November 2019**

|                                                                                                                       |     |
|-----------------------------------------------------------------------------------------------------------------------|-----|
| <b>Modelling Volatility Dynamics of Cryptocurrencies Using GARCH Models</b>                                           |     |
| A. Ngunyi, S. Mundia, C. Omari.....                                                                                   | 591 |
| <b>Introducing the Power Series Method to Numerically Approximate Contingent Claim Partial Differential Equations</b> |     |
| G. W. Buetow, J. Sochacki.....                                                                                        | 616 |
| <b>A New Way to Compute the Probability of Informed Trading</b>                                                       |     |
| A. Bambade.....                                                                                                       | 637 |
| <b>Study on Loan Pricing Model of Commercial Banks Based on Artificial Neural Network</b>                             |     |
| M. Zhang, X. H. Liu, Y. Liu.....                                                                                      | 667 |
| <b>Portfolio Mathematics with General Linear and Quadratic Constraints</b>                                            |     |
| D. L. Stowe.....                                                                                                      | 675 |
| <b>Asset Return Prediction via Machine Learning</b>                                                                   |     |
| L. L. Zhang.....                                                                                                      | 691 |
| <b>Valuation of Quanto Caps and Floors in a Calibrated Multi-Curve Cross-Currency LIBOR Market Model</b>              |     |
| C. Wamwea, P. Ngare, M. L. D. Mbele Bidima, S. Mwelu.....                                                             | 698 |
| <b>Price Dynamics under the Information-Based Dealer Model</b>                                                        |     |
| K. Fukuda, K. Kondo, H. Takada.....                                                                                   | 726 |
| <b>The British Binary Option</b>                                                                                      |     |
| M. Gao.....                                                                                                           | 747 |
