

TABLE OF CONTENTS

Volume 5 Number 1

January 2012

Computation of Complex Primes Using Elliptic Curve: Application for Cryptosystem Design

B. Verkhovsky.....1

A Novel Cooperative Spectrum Sharing Algorithm Based on Optimal Cognitive Radio User Selection

M. Bigdeli, B. Abolhassani.....7

Improved Multiple-Scenario Radio Network Dimensioning for WCDMA

T. S. Ng, T. C. Chuah, Y. F. Tan.....17

Multi-Resolution Fourier Analysis Part II: Missing Signal Recovery and Observation Results

N. Yahya Bey.....28

Modeling Transfer Function of Electrical Power Lines for Broadband Power Line Communication

S. D. Bennani.....37

Comparison of Kurtosis and Fourth Power Detectors with Applications to IR-UWB OOK Systems

J. Taghipour, V. T. Vakili, D. Abbasi-Moghadam.....43

A Generic Service Architecture for Secure Ubiquitous Computing Systems

S. D. Chen, J. Lukkien, R. Verhoeven.....50

Secure Cooperative Spectrum Sensing based on the Distance between Bodies of Evidence

Y. Wang, Y. J. Hu, X. W. Tang, Y. G. Wang.....66

Content-Based Image Unequal Error Protection Strategies for an Open Loop MIMO System

R. Colda, C. Perrine, J.-P. Cances, R. Vauzelle, T. Palade.....72

The figure on the front cover is from the article published in *Int. J. Communications, Network and System Science*, 2012, Vol. 5, No. 1, pp. 7-16 by Mohammad Bigdeli and Bahman Abolhassani.
