

TABLE OF CONTENTS

Volume 4 Number 2

February 2012

Stress Concentrations for Slotted Plates in Bi-Axial Stress

D. W. A. Rees, H. Bahai, S. Taylor.....69

Entropy-Based Set Pair Analysis Model on Geological Disaster Risk for Military Engineering

Q. B. Rong, H. J. Zhang, F. S. Wang.....76

Ecological Problems Related to Mining-Metallurgical Industries and Innovatory, Energy-Efficient Ways of Solving Them

G. Jishkariani, G. Jandieri, D. Sakhvadze, G. Tavadze, G. Z. G. Oniashvili, Z. Aslamazishvili.....83

Case Study: Hydraulic Model Experiment to Analyze the Hydraulic Features for Installing Floating Islands

S. Jung, J. Kang, I. Hong, H. Yeo.....90

Environments Aware for Prolonging the Lifetime of Sensor Nodes Deployed in WSNs

J. I.-Z. Chen, L.-T. Yeh.....100

Development of Large-Scale Land Information System (LIS) by Using Geographic Information System (GIS) and Field Surveying

A. Th. Ibraheem.....107

A New Model for Transmission Network Expansion and Reactive Power Planning in a Deregulated Environment

A. Mahmoudabadi, M. Rashidinejad, M. Zeinaddini-Maymand.....119

Enhancement of Ride Quality of Quarter Vehicle Model by Using Mixed H_2/H_∞ with Pole-Placement

A. S. Emam, A. M. Abdel Ghany.....126

The figure on the front cover is from the article published in Engineering, 2012, Vol. 4, No. 2, pp. 107-118 by Asma Th. Ibraheem.
