The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of discrete mathematics.

Subject Coverage

The journal publishes original papers including but not limited to the following fields:

- Algebra
- Calculus of finite differences, discrete calculus or discrete analysis
- Combinatorics
- Discrete analogues of continuous mathematics
- Discretization
- Game theory, decision theory, utility theory, social choice theory
- Geometry
- Graph theory
- Hybrid discrete and continuous mathematics
- Information theory
- Logic
- Number theory
- Operations research
- Probability
- Set theory
- Theoretical computer science
