

TABLE OF CONTENTS

Volume 4 Number 3

March 2013

Set-Valued Non-Linear Random Implicit Quasivariational Inclusions

Salahuddin, M. K. Ahmad.....421

Weighted Teaching-Learning-Based Optimization for Global Function Optimization

S. C. Satapathy, A. Naik, K. Parvathi.....429

Exact Solution for a Class of Stiff Systems by Differential Transform Method

M. Idrees, F. Mabood, A. Ali, G. Zaman.....440

The q -Exponential Social Discounting Functions of Gain and Loss

T. Takahashi.....445

Multiple Solutions for a Class of Concave-Convex Quasilinear Elliptic Systems with Nonlinear Boundary Condition

L. Wang.....449

The Finite Element Approximation in Hyperbolic Equation and Its Application

S. Boulaaras, K. Mahdi, H. Abderrahim, A. Hamou, S. Kabli.....456

Derivative of a Determinant with Respect to an Eigenvalue in the LDU Decomposition of a Non-Symmetric Matrix

M. Kashiwagi.....464

Modeling of Surface Waves in a Fluid Saturated Poro-Elastic Medium under Initial Stress Using Time-Space Domain Higher Order Finite Difference Method

A. P. Ghorai, R. Tiwary.....469

Construction and Application of 3-Point Tensor Product Scheme

A. Ghaffar, G. Mustafa, K. Qin.....477

The Conservation Laws and Stability of Fluid Waves of Permanent Form

T. A. Bodnar'.....486

On Retractions of Lobachevsky Space

A. E. El-Ahmady, K. Al-Onemi.....491

On Elastic Klein Bottle and Fundamental Groups

A. E. El-Ahmady.....499

The New Approximate Calculation Method for the First Order Reliability

G. L. Hao, X. L. Liang, S. J. Zhang.....505

Analysis of the Impact on Hydraulic Facilities Due to Underground Mining Based on the Influence Function Method

X. L. Liang, G. L. Hao.....510

The Riemannian Structure of the Three-Parameter Gamma Distribution

W. W. S. Chen, S. Kotz.....514

Computational Methods in the Theory of Synthesis of Radio and Acoustic Radiating Systems

P. Savenko.....523

Optimal Production Control of Hybrid Manufacturing/Remanufacturing Failure-Prone Systems under Diffusion-Type Demand

S. Ouaret, V. Polotski, J.-P. Kenné, A. Gharbi.....550

Importance of Generalized Logistic Distribution in Extreme Value Modeling

K. Nidhin, C. Chandran.....560

MHD Slip Flow past a Shrinking Sheet

S. Chaudhary, P. Kumar.....574

The figure on the front cover is from the article published in *Applied Mathematics*, 2013, Vol. 4, No. 3, pp. 464-468 by Mitsuhiro Kashiwagi.
