Journal of Communications and Computers is an international journal dedicated to the latest advancement of communications and computers. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of computer and communications. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

## **Subject Coverage**

The journal publishes original papers including, but not limited to, the following subfields of anthropology:

- Artificial Intelligence
- Big Data Search and Mining
- Cloud Computing
- Communication Protocols
- Complex network models
- Computational Robotics
- Computer and Network Security
- Computer graphics and visualization
- Computer Vision
- Cooperative Communications
- Distributed computing
- Green networking
- Grid Computing
- High Performance Computing
- Image Processing
- Information and communication theory and algorithms
- Information and Communication: Security, Privacy, and Trust
- Information retrieval
- Mobile and Portable Communications Systems
- Mobile and Ubiquitous Networks
- Mobile Computing Systems
- Multimedia/Signal processing
- Network Modeling and Simulation
- Numerical Methods
- Online social network computing
- Optical Communications
- Self-Stabilization, Autonomic Computing
- Simulation/Analytical Evaluation of Communication Systems

We are also interested in: 1) Short Reports – 2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews – Comments and critiques.
