Call for Papers

ISSN: 2169-2637 (Print) ISSN: 2169-2645 (Online) http://www.scirp.org/journal/ojee

Open Journal of Energy Efficiency (OJEE) is an open access journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in all areas of energy efficiency.

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by Open Journal of Energy Efficiency (OJEE) include but are not limited to:

Consumer behavior and the dynamics of consumption Energy efficiency in developing countries and economies in transition Energy efficiency in the building issues Energy efficiency in the residential Energy efficiency in the residential industrial Energy efficiency in the transportation issues Energy efficiency policies Energy management systems and energy services Energy planning and risk assessment Farm, water and bio-energy efficiency Modern energy-efficient appliances Non-energy benefits of energy efficiency and opportunities for policy integration Power usage effectiveness Socio-economic impacts of energy efficiency measures Technologies to improve energy efficiency

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

High visibility for maximum global exposure with open access publishing model
Rigorous peer review of research papers
