Conference on Nanomaterials (CN 2013)

Conference Program Committee

TPC

Dr. Alexander Pyatenko	National Institute of Advance Industrial Science and Technology (AIST), Japan
Dr. Latika Menon	Northeastern University, USA
Prof. Soon-Gil Yoon	Chungnam National University, Korea (South)
Prof. Fengxiang Zhang	Chinese Academy of Sciences, China
Prof. Aswini Ghosh	Indian Association for the Cultivation of Science, India
Prof. Sang Yeol Lee	Cheongju University, Korea (South)
Dr. Farid MENAA	Fluorotronics, Inc, USA
Prof. Peng Liu	Lanzhou University, China
Prof. Biranchinarayan Tosh	Orissa Engineering College, India
Prof. Richard J. Spontak	North Carolina State University, USA
Prof. Lev Rapoport	Holon Institute of Technology, Israel
Prof. Sarani Zakaria	The National University of Malaysia, Malaysia
Prof. Ali A. Ensafi	Isfahan University of Technology, Iran
Prof. Christina Graf	Freie Universitat Berlin, Germany

TABLE OF CONTENTS

Volume 3 Number 4B

October 2013

The Influence of Sheath Solvent's Flow Rate on the Quality of Electrospun Ethyl Cellulose Nanofibers

D.-G. Yu, X.-X. Li, J.-W. Ge, P.-P. Ye, X. Wang.....1

Ketoprofen/ethyl Cellulose Nanofibers Fabricated Using an Epoxy-coated Spinneret

X.-Y. Li, D.-G. Yu, C.-T. Fu, R. Wang, X. Wang.....6

Atomistic Simulation of Undissociated 60° Basal Dislocation in Wurtzite GaN.

I. Belabbas, J. Chen, Ph. Komninou, G. Nouet.....11

Experimental Study of Surface and Solution Properties of Gemini -conventional Surfactant Mixtures on Solubilization of Polycyclic Aromatic Hydrocarbon

M. Kamil, H. Siddiqui.....17

Modeling and Numerical Simulation of Material Science (MNSMS)

Journal Information

SUBSCRIPTIONS

The *Modeling and Numerical Simulation of Material Science* (Online at Scientific Research Publishing, www.SciRP.org) is published quarterly by Scientific Research Publishing, Inc., USA.

Subscription rates:

Print: \$59 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: sub@scirp.org

<http://www.scirp.org/journal/mnsms>

Modeling and Numerical Simulation of Material Science (MNSMS) is an international peer-reviewed, open access journal publishing in English original research studies, reviews and case reports in all aspects of Material Science. Symposia or workshop papers may be published as supplements.

Honorary Editor in Chief

Prof. Kiet Tieu **University of Wollongong, Australia**

Executive Editor in Chief

Prof. Hai-Liang Yu **Shenyang University, China**

Subject Coverage

All the manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copies. The journal publishes original papers including but not limited to the following fields:

- Application of modeling and numerical simulation methods in analysis of solidification, forming, welding, heat treatment, surface engineering, process of materials, include, ferrous metals and alloys, non-ferrous metals and alloys, biomaterials, carbons, ceramic materials, polymer, composites, and other advanced materials.
- New development of modeling and numerical simulations methods for analysis material processes, such as finite element method, finite difference method, boundary element method, slab method, crystal finite element method, CA, MD, statistical methods, artificial intelligence method.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
