

## Table of Contents

Volume 6    Number 3

March 2014

**The Calculation of the Effective Tensor Coefficient of the Medium for the Objects with Microinclusions**

E. P. Shurina, M. I. Epov, N. V. Shtabel, E. I. Mikhaylova.....101

**Computational Simulations of Bone Remodeling under Natural Mechanical Loading or Muscle Malfunction Using Evolutionary Structural Optimization Method**

H. Latifi, Y. M. Xie, X. D. Huang, M. Bilgen.....113

**Finite Element Method Applied to the Eigenvalue Analysis of Flexible Rotors Supported by Journal Bearings**

W. M. Miranda, M. T. C. Faria.....127

**Application of Finite Elements Method for Structural Analysis in a Coffee Harvester**

E. P. da Silva, F. M. da Silva, R. R. Magalhães.....138

**Analysis of Biomechanical Behaviour of Anterior Teeth Using Two Different Methods: Finite Element Method and Experimental Tests**

L. M. Bessone, E. F. Bodereau, G. Cabanillas, A. Dominguez.....148
