DISCLAIMER OF LIABILITY

Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:

E-mail: ojab@scirp.org

Open Journal of Applied Biosensor

ISSN 2168-5401 (Print) ISSN 2168-5398 (Online)

<http://www.scirp.org/journal/ojab>

Open Journal of Applied Biosensor (OJAB) is an openly accessible journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Biosensor.

Editor-in-Chief

Prof. Arun K. Bhunia

Purdue University, USA

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by Open Journal of Applied Biosensor (OJAB) include but are not limited to the following fields:

- Array Biosensor
- Bioactuators
- Bio-electrochemistry
- Bioinformation Processing
- Biological Materials
- Biomedical Applications
- Bio-medical Devices for POC Diagnostics
- BioMEMS
- Biosensing Principles and Mechanisms
- Biosensor Applications
- Biosensor Fabrication
- Biosensor Interfaces and Membrane Technology
- Biosensor Packaging and Assembly
- Biosensor's Clinical Validation
- Blood Glucose Biosensor
- DNA Chips
- Instrumentation, Signal Treatment and Uncertainty Estimation in Biosensor
- Lab-on-a-chip Technology in Biosensors
- Microfluidic Devices in Biosensors
- Nanobiosensors and Nanotechnology Used in Biosensors
- Neural Sensor

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
