

Table of Contents

Volume 4 Number 5

December 2014

Comparison of One-Dimensional Analysis with Experiment for CO₂ Two-Phase Nozzle Flow

W. Tsuru, S. Ueno, Y. Kinoue, N. Shiomi.....415

Structural Damage Localization by Linear Technique of Acoustic Emission

M. T. I. Khan, N. Sunichi, M. Hasan.....425

A Twin Unidirectional Impulse Turbine for Wave Energy Conversion—Effect of Fluidic Diode on the Performance

S. Okuhara, M. Takao, H. Sato, A. Takami, T. Setoguchi.....433

Determination of Aerodynamic Sound Sources on Periodicity Noise Generated from a Micro Wind Turbine

S. Sasaki, R. Sakada, K. Suzuki.....440

Improvement of a Propulsion Equipment with a Supersonic Nozzle for Single Pulse Detonation

K. Toshimitsu, S. Mikajiri, R. Takahashi.....447

Heat Transfer Characteristics of Work Fluid Including Phase Change Material That Flow into Heating Surface from Narrow Path

S.-I. Morita, Y. Hayamizu, T. Yamada, A. Horibe, N. Haruki, T. Setoguchi, K. Adachi.....454

A Micromixer Using the Taylor-Dean Flow: Effect of Inflow Conditions on the Mixing

T. Kawabe, Y. Hayamizu, S. Yanase, T. Gonda, S. Morita, S. Ohtsuka, K. Yamamoto.....463
