## Subject Coverage

All manuscripts must be prepared in English and are subject to a rigorous and fair peer-review process. The journal publishes original papers including but not limited to the following subfields:

- |                                      |                                   |
|--------------------------------------|-----------------------------------|
| • Apparel Engineering                | • Textile Biomedical Materials    |
| • Behavior and Propriety of Textiles | • Textile Characterization        |
| • Braiding                           | • Textile Composite Materials     |
| • Dyeing and Finishing               | • Textile Machinery and Equipment |
| • Functional and Advanced Textiles   | • Textile Physical Chemistry      |
| • Industrial Textiles                | • Textile Products and Design     |
| • Knitting                           | • Weaving                         |
| • No-Weaving                         |                                   |

We are also interested in:

- 1) Short reports—2-5 page papers where an author can present an idea with theoretical background, but has not yet completed the research needed for a complete paper or an author presents preliminary data;
- 2) Short communications—2-5 page papers;
- 3) Technical notes—2-5 page papers;
- 4) Letters to the Editor (the number of pages is not restricted);
- 5) Reviews or book reviews—comments and critiques (the number of pages is not restricted);

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
