Advances in Enzyme Research

ISSN: 2328-4846 (Print) ISSN: 2328-4854 (Online)

<http://www.scirp.org/journal/aer/>

Advances in Enzyme Research (AER) is an openly accessible journal. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of enzyme research.

Editor-in-Chief

Prof. Bechan Sharma

University of Allahabad, India

Subject Coverage

The areas covered by *Advances in Enzyme Research (AER)* include but are not limited to the following fields:

- Applied Enzymology
- Biocatalysis
- Bioinorganic Enzymology
- Biomedical Enzymology
- Conformational Dynamics of Enzymes
- Computational Enzymology
- Enzyme Binding Studies
- Enzyme Inhibition and Inhibitors
- Enzyme Therapy
- Enzymes and Metabolism
- Enzymes in Biotechnology
- Enzymes in Ecology
- Enzymes in Energy Production
- Enzymes in Medicine
- Enzymes in Nutrition
- Enzymes in Pharmacology
- Experimental Techniques in Enzymology
- Industrial Enzymology
- Mechanisms of Enzyme Reactions
- Modeling Enzyme Kinetics and Networks
- Modern Experimental Techniques in Enzymology
- Novel Applications of Enzymes
- Production of Biofuel by Solid-State and Submerged Fermentation
- Spectroscopy Methods in Enzyme Research
- Structure and Function of Enzymes
- Synthesis of Enzymes
- X-Ray Crystallography of Enzymes

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Notes for Intending Authors

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed hard copy.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
