# Call for Papers

## Energy and Power Engineering

ISSN 1949-243X (Print) ISSN 1947-3818 (Online)  
<http://www.scirp.org/journal/epe>

Energy and Power Engineering(EPE), a quarterly journal, publishes research and review articles in all important aspects of electric power engineering and other professionals involved in the electric power industry. Both experimental and theoretical papers are acceptable provided they report important findings, novel insights, or useful techniques in these areas.

### Subject Coverage

EPE aims to strengthen relations between the energy sector, research laboratories, and universities. Additionally, accepted ones will immediately appear online followed by printed in hard copy. The topics to be covered by Energy and Power Engineering include, but are not limited to:

- ◆ Bio-Energy
- ◆ CO<sub>2</sub> and Emission Issues
- ◆ Conventional Energy Power Generation
- ◆ Energy Resources
- ◆ Energy Storage
- ◆ Organic and Inorganic Photovoltaics
- ◆ Petroleum Engineering
- ◆ Power Electronic Engineering
- ◆ Socio-Economic and Power System Management

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the EPE.

### Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
