Open Journal of Acoustics (OJA) is an international journal dedicated to the latest advancement of acoustics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of acoustics.

Subject Coverage

This journal invites original research and review papers that address the following issues in acoustics. Topics of interest include, but are not limited to:

- Acoustic and speech signal processing
- Acoustic material
- Acoustic measurement
- Acoustic problems in information science
- Acoustic signal processing
- Acoustic transducer, acoustic measurements and methods
- Architectural Acoustics and Electroacoustics
- Fluid Dynamics and Acoustics
- Infrasonics
- Linear acoustics
- Musical acoustics
- Noise, noise effects and control
- Nonlinear acoustics
- Other physical and acoustic-related issues and cross-disciplinary
- Physical, psychological acoustics and bioacoustics
- Sound of water and marine acoustics
- Structural Acoustics and Vibration
- Ultrasonics in medicine
- Ultrasonics, quantum acoustics and acoustic effects

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the *OJA*.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
