

Special Issue on Petroleum Engineering

Call for Papers

Petroleum Engineering is a field of engineering concerned with the activities related to the production of hydrocarbons, which can be either crude oil or natural gas. Exploration and Production are deemed to fall within the upstream sector of the oil and gas industry. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of petroleum engineering.

In this special issue, we are going to invite front-line researchers and authors to submit original research and review articles that explore **Petroleum Engineering**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue —Petroleum Engineering**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 17th, 2013
Publication Date	October 2013

Guest Editor:

Prof. **SungCheal Moon**

Korea Institute of Materials Science (KIMS), South Korea
