Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

Agricultural climatology	Hydrometeorology
Air chemistry and the boundary layer, clouds and weather modification	Marine meteorology and meteorology-associated geophysics
Applied meteorology	Medical meteorology and medical climatology
Atmospheric acoustics, electricity, optics, physics, radiation and sounding	Meteorological, climatological and atmospheric environmental issues
Atmospheric sciences	Navigation climatology
Aviation climatology	Phenology and paleoclimatology
Biometeorology	Polar meteorology
Building climatology and forestry climatology	Radar meteorology and radio meteorology
Climate dynamics and variability	Remote sensing
Clouds and precipitation physics	Satellite meteorology and synoptic meteorology
Cosmical meteorology	Tropical meteorology
Dendroclimatology	Weather systems, numerical weather prediction

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the **ACS**.
