

## Special Issue on Viral Infections

### Call for Papers

Viruses are the tiny organisms which are like hijackers, invading the living cells, multiplying and producing other viruses like themselves, and eventually killing the cells. They cause various infectious diseases such as the common cold, flu, warts, HIV/AIDS and hemorrhagic fevers.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Viral Infections**. Potential topics include, but are not limited to:

- Cytomegalovirus
- Dengue
- Epstein-Barr virus
- H1N1 swine flu
- Hepatitis
- Herpes virus
- Human immunodeficiency virus
- Influenza
- Retrovirus
- Severe acute respiratory syndrome
- West Nile virus

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Viral Infections**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 10th, 2016
Publication Date	September 2016
