## Special Issue on Current Research on Coronavirus

### Disease 2019 (COVID-19)

#### Call for Papers

Coronavirus disease 2019 (COVID-19) is a contagious disease caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The first case was identified in Wuhan, China, in December 2019. It has since spread worldwide, leading to an ongoing pandemic.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Current Research on Coronavirus Disease 2019 (COVID-19)**. Potential topics include, but are not limited to:

- COVID-19 testing and screening
- Pathophysiology
- Diagnosis and treatment
- Immunopathogenesis and immunotherapeutics
- Neuropathological features
- Post-COVID-19 complications
- Virology, transmission, and pathogenesis
- COVID-19 epidemiology
- Clinical observation and management
- Prevention and control measures in community
- Real-time monitoring the transmission potential
- A mathematical model of COVID-19 pandemic
- COVID-19 drug development
- Vaccine study and safety
- Nursing and support
- Social psychological measurements
- Mental health and the Covid-19 pandemic

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Current Research on Coronavirus Disease 2019 (COVID-19)**” should be chosen during your submission.

---

According to the following timetable:

Submission Deadline	January 26th, 2022
Publication Date	March 2022
