

## TABLE OF CONTENTS

Volume 1    Number 4

December 2011

<b>Approximate Solution of the Singular-Perturbation Problem on Chebyshev-Gauss Grid</b>	
M. Gülsu, Y. Öztürk.....	209
<b>General Solution of Generalized (2 + 1)-Dimensional Kadomtsev-Petviashvili (KP) Equation by Using the (G'/G) -Expansion Method</b>	
A. Borhanifar, R. Abazari.....	219
<b>Solution of the Generalized Abel Integral Equation by Using Almost Bernstein Operational Matrix</b>	
S. Dixit, R. K. Pandey, S. Kumar, O. P. Singh.....	226
<b>Analytical Solution of Two Extended Model Equations for Shallow Water Waves by He's Variational Iteration Method</b>	
M. Safari, M. Safari.....	235
<b>A Look at the Tool of BYRD and NOCEDAL</b>	
L. H. Huang, G. Y. Li, G. L. Yuan.....	240
<b>Chebyshev Approximate Solution to Allocation Problem in Multiple Objective Surveys with Random Costs</b>	
M. F. Khan, I. Ali, Q. S. Ahmad.....	247
<b>A New Preconditioner with Two Variable Relaxation Parameters for Saddle Point Linear Systems with Highly Singular (1,1) Blocks</b>	
Y. P. Zeng, C. L. Li.....	252
<b>Context-Dependent Data Envelopment Analysis with Interval Data</b>	
M. Izadikhah.....	256
<b>An Upwind Finite Volume Element Method for Nonlinear Convection Diffusion Problem</b>	
F. Z. Gao, Y. R. Yuan, N. Du.....	264
<b>Bringing out Fluids Experiments from Laboratory to <i>in Silico</i>—A Journey of Hundred Years</b>	
M. S. Kumar, P. Philominathan.....	271
<b>The Wartime Bridge Reliability Evaluation Model Based on Birth-and-Death Process</b>	
D.-D. Wang, G.-Q. Qiu.....	281

**An Efficient Direct Method to Solve the Three Dimensional Poisson's Equation**

A. Shiferaw, R. C. Mittal.....285

**First Order Convergence Analysis for Sparse Grid Method in Stochastic Two-Stage Linear Optimisization Problem**

S. Y. Chen.....294

**A Gas Dynamics Method Based on the Spectral Deferred Corrections (SDC) Time Integration Technique and the Piecewise Parabolic Method (PPM)**

S. Y. Kadioglu.....303

**A New Fourth Order Difference Approximation for the Solution of Three-Dimensional Non-Linear Biharmonic Equations Using Coupled Approach**

R. K. Mohanty, M. K. Jain, B. N. Mishra.....318

---

The figure on the front cover is from the article published in *American Journal of Computational Mathematics*, 2011, Vol. 1, No. 4, pp. 235-239 by Mehdi Safari and Majid Safari.
