Volume 7 Number 1

March 2017

Peristaltic Transport of Magnetohydrodynamic Carreau Nanofluid with Heat and Mass Transfer inside Asymmetric Channel

N. T. M. Eldabe, O. M. Abo-Seida, A. A. S. Abo-Seliem, A. A. ElShekhiy, N. Hegazy.....1

Improving Performance and Enhancing Introductory Statistics Using Projects

J. D'Andrea, R. Wooten.....21

Heru Search Method—Unique in the World that Uses Unprecedented Mathematical Formulas and Replaces the Binary Tree Breaking Various Paradigms Like $O(\log n)$

C. R. França.....29

The Approximated Semi-Lagrangian WENO Methods Based on Flux Vector Splitting for Hyperbolic Conservation Laws

F. X. Hu.....40

Computational Modeling and Dynamics of the Oil and Water Flow Using the Galerkin Approximation

F. Akter, U. K. Deb.....58

Numerical Study of One Dimensional Fishers KPP Equation with Finite Difference Schemes

S. Hasnain, M. Saqib, D. S. Mashat.....70

An Efficient Decomposition Method for Solving Bratu's Boundary Value Problem

M. Al-Mazmumy, A. Al-Mutairi, K. Al-Zahrani.....84

Demystification of Vedic Multiplication Algorithm

M. Mathur, Aarnav.....94

Area inside a Circle: Intuitive and Rigorous Proofs

V. Siadat.....102

An Algorithm to Classify the Asymptotic Set Associated to a Polynomial Mapping

N. T. B. Thuy.....109
