## Subject Coverage

This journal invites original research and review papers that address the following issues in operations research. Topics of interest include, but are not limited to:

### 1. Operations Research and Optimization Theory and Research Technical Approaches

Computational Intelligence and Information Management  
Continuous Optimization  
Decision Support Systems, Multi-Criteria Decision Methods  
Discrete Optimization  
Expert Systems  
Heuristics Mathematical Programming  
Networks  
Queues  
Simulation  
Stochastic Models and Statistics  
Time Series Analysis

### 2. Manufacturing and Service Operations Research

Forecasting  
Inventory  
Location  
Logistics, Transportation Warehousing and Maintenance  
Planning and Scheduling  
Product and Service Design

Project Management  
Quality Management  
Revenue Management  
Supply Chain Management

### 3. Interfaces with Other Disciplines

Community Operations Research  
Complex Systems  
Education Operations Research  
Environmental and Energy Issues  
Financial Engineering  
Government Operations Research  
Health Services Operations Research  
Marketing Science  
Military and Homeland Security  
Operations Research in Nonprofit Organization  
Policy Modeling and Public Sector OR  
Productivity and Efficiency in the Public Sector  
Sports Operations Research  
Telecommunications and Networking

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the AJOR.

## Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
