Subject Coverage

This journal invites original research and review papers that address the following issues in operations research. Topics of interest include, but are not limited to:

1. Operations Research and Optimization Theory and Research Technical Approaches
- Computational Intelligence and Information Management
- Continuous Optimization
- Decision Support Systems, Multi-Criteria Decision Methods
- Discrete Optimization
- Expert Systems
- Heuristics Mathematical Programming
- Networks
- Queues
- Simulation
- Stochastic Models and Statistics
- Time Series Analysis

2. Manufacturing and Service Operations Research
- Forecasting
- Inventory
- Location
- Logistics,Transportation Warehousing and Maintenance
- Planning and Scheduling
- Product and Service Design
- Project Management
- Quality Management
- Revenue Management
- Supply Chain Management

3. Interfaces with Other Disciplines
- Community Operations Research
- Complex Systems
- Education Operations Research
- Environmental and Energy Issues
- Financial Engineering
- Government Operations Research
- Health Services Operations Research
- Marketing Science
- Military and Homeland Security
- Operations Research in Nonprofit Organization
- Policy Modeling and Public Sector OR
- Productivity and Efficiency in the Public Sector
- Sports Operations Research
- Telecommunications and Networking

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the AJOR.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
