**Advances in Lung Cancer (ALC)** is a peer-reviewed, open access journal published quarterly. The goal of this journal is to provide a platform for doctors and academicians all over the world to promote, share, and discuss various new issues and developments in all aspects of basic and clinical lung cancer research.

## Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by Advances in Lung Cancer (ALC) include but are not limited to the following fields:

- Angiogenesis and Tumor Invasion
- Basic Biology of Lung Cancer
- Clinical Assessment of Lung Cancer
- Detection and Screening of Lung Cancer
- Epidemiology and Etiology of Lung Cancer
- Lung Cancer Chemotherapy
- Lung Cancer Radiotherapy
- Lung Cancer Staging
- Lung Cancer Surgery
- Non-Small-Cell Lung Carcinomas (NSCLC)
- Pancoast Tumors
- Pathology of Lung Cancer
- Prevention of Lung Cancer
- Small-Cell Lung Carcinoma (SCLC)
- Symptoms of Lung Cancer

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
