

# Table of Contents

**Volume 7    Number 15**

**September 2016**

<b>Clustering of the Values of a Response Variable and Simultaneous Covariate Selection Using a Stepwise Algorithm</b>	
O. Collignon, J.-M. Monnez.....	1639
<b>A New Approach to Investigate Students' Behavior by Using Cluster Analysis as an Unsupervised Methodology in the Field of Education</b>	
O. R. Battaglia, B. Di Paola, C. Fazio.....	1649
<b>On Data-Independent Properties for Density-Based Dissimilarity Measures in Hybrid Clustering</b>	
K. Møllersen, S. S. Dhar, F. Godtlielsen.....	1674
<b>Performance Analysis of Wavelength Division Multiplexing Asynchronous Internet Router Employing Space Priority Mechanism under Self-Similar Traffic Input—Multi-Server Queueing System with Markovian Input and Erlang-k Services</b>	
R. K. Gudimalla, M. R. Perati.....	1707
<b>Asymptotically Antiperiodic Solutions for a Nonlinear Differential Equation with Piecewise Constant Argument in a Banach Space</b>	
W. Dimbour, V. Valmorin.....	1726
<b>Verification of Real-Time Pricing Systems Based on Probabilistic Boolean Networks</b>	
K. Kobayashi, K. Hiraishi.....	1734
<b>Rothe's Fixed Point Theorem and the Controllability of the Benjamin-Bona-Mahony Equation with Impulses and Delay</b>	
H. Leiva, J. L. Sanchez.....	1748
<b>Chaos Behavior and Estimation of the Unknown Parameters of Stochastic Lattice Gas for Prey-Predator Model with Pair-Approximation</b>	
S. M. Alwan.....	1765
<b>Oscillation Properties of Third Order Neutral Delay Differential Equations</b>	
E. M. Elabbasy, O. Moaaz, E. Sh. Almehabresh.....	1780
<b>Explicit Solutions of the Coupled mKdV Equation by the Dressing Method via Local Riemann-Hilbert Problem</b>	
T. Su, G. H. Ding, Z. W. Wang.....	1789

<b>Domain Decomposition for Wavelet Single Layer on Geometries with Patches</b>	
M. Randrianarivony.....	1798
<b>Alternative Fourier Series Expansions with Accelerated Convergence</b>	
W. L. Li.....	1824
<b>Distribution of Sediment Measurements in Lake Michigan as a Case Study: Implications for Estimating Sediment and Water Interactions in Eutrophication and Bioaccumulation Models</b>	
D. H. Miller, X. S. Xia, W.-C. Huang, R. Rossmann.....	1846
<b>A Remark on Polynomial Mappings from <math>\mathbb{C}^n</math> to <math>\mathbb{C}^{n-1}</math> and an Application of the Software Maple in Research</b>	
T. B. T. Nguyen.....	1868
<b>Mathematical Analysis and Simulation of an Age-Structured Model of Two-Patch for Tuberculosis (TB)</b>	
B. K. A. Wahid, S. Bisso.....	1882
