

# Table of Contents

**Volume 10    Number 8**

**August 2019**

**Inference of General Mass Action-Based State Equations for Oscillatory Biochemical Reaction Systems Using  $k$ -Step Genetic Programming**

T. Sekiguchi, H. Hamada, M. Okamoto.....627

**$L$ -Convex Polyominoes: Geometrical Aspects**

K. Tawbe, S. Mansour.....646

**Stability of Stochastic Logistic Model with Ornstein-Uhlenbeck Process for Cell Growth of Microorganism in Fermentation Process**

T. Ayoubi.....659

**Consistency and Stability Issues in the Numerical Integration of the First and Second Order Initial Value Problem**

I. Fried.....676

**Short and Long-Term Time Series Forecasting Stochastic Analysis for Slow Dynamic Processes**

J. Pucheta, C. Salas, M. Herrera, C. Rodriguez Rivero, G. Alasino.....704
