

# Table of Contents

**Volume 11 Number 11**

**November 2020**

## **A Statistical Measure of Global Equity Market Risk**

D. F. Ahelegbey.....1053

## **On Multiplicative Generators of n-Dimensional Overlap Functions**

H. Xie.....1061

## **Iterating with Fuzzy Parameters to Produce Exact Results**

E. E. Klingman.....1070

## **The Vibrational Motion of a Dynamical System Using Homotopy Perturbation Technique**

T. S. Amer, A. A. Galal, S. Elnaggar.....1081

## **Numerical Solution of Fractional Differential Equations**

A. Daraghmeh, N. Qatanani, A. Saadeh.....1100

## **From Pressure-Volume Relationship to Volume-Energy Relationship: A Thermo-Statistical Model for Alveolar Micromechanics**

K. Min.....1116

## **Factorization of Functional Operators with Involution Rotation on the Unit Circle**

A. Karelin, A. Tarasenko.....1132

## **Numerical Simulation of Modified Kortweg-de Vries Equation by Linearized Implicit Schemes**

M. S. Ismail, F. Alotaibi.....1139

## **Mean Difference of Truncated Normal Distribution**

G. Girone, A. Massari, F. Manca, C. Marin.....1162

## **Plasma Model of Generation and Slip of Linear Defects in Crystalline Materials**

V. L. Busov, G. M. Vladimirovna.....1167

## **On Symmetry Reduction of the (1 + 3)-Dimensional Inhomogeneous Monge-Ampère Equation to the First-Order ODEs**

V. M. Fedorchuk, V. I. Fedorchuk.....1178

## **A Note on Ball Proximality**

B. Wang, X. Y. Liu.....1196

**Mathematical Model of the Spread of the Coronavirus Disease 2019 (COVID-19) in  
Burkina Faso**

A. Guiro, B. Koné, S. Ouaro.....1204

**Stochastic Viscosity Solutions for SPDEs with Discontinuous Coefficients**

Y. D. Zhang.....1219
