

Table of Contents

Volume 11 Number 12

December 2020

**Asymptotic Analysis of Linear and Interval Linear Fractional-Order Neutral Delay
Differential Systems Described by the Caputo-Fabrizio Derivative**

A. Al Sawoor, M. Sadkane.....1229

**Finite Volume Element Method for Solving the Elliptic Neumann Boundary
Control Problems**

Q. X. Wang.....1243

**A Stochastic Strategy for Optimizing the Cost of Systematic Screening of Some
Diseases in a Situation of Insufficient Equipment**

L. Zihindula Biguru.....1253

Credit Card Fraud Detection Using Weighted Support Vector Machine

D. F. Zhang, B. Bhandari, D. Black.....1275

The Application of Linear Ordinary Differential Equations

H. Y. Cui.....1292
